Best Free Firewall Program

If you're on a budget, Avira Free Internet Security is a good option that offers decent protection and a few extra security tools.. You don't need a standalone personal firewall program, but it's smart to get an internet security program that includes a firewall.. After nearly 300 hours of researching and testing security software, we found that Bitdefender Internet Security 2019 is the best overall firewall option for Windows computers and Intego Premium Bundle is good for Mac users.
